

Memo

TO: Mayor Manier and City Council
FROM: Ed Andrews, Public Works Director
DATE: April 14, 2017
SUBJECT: Cured in Place Pipe (CIPP) Liner for Sanitary Sewer under Creek
Upstream of Candlewood Bridge

During routine bridge inspections in February of 2017, the aerial sewer crossing upstream of the Candlewood bridge was noted as having settlement due to scour at the support pier. City forces, supplemented with contract excavator services undertook repairs of the scour, but additional CIPP sewer lining is required to complete repairs and insure that no leakage from the sewer crossing.

The following pricing for approximately 670' of CIPP was obtained in order to line the sewer manhole to manhole.

Hoerr Construction (of Peoria):	\$27/LF, est \$18,190
Pipevision Products Inc. (of Lasalle):	\$37/LF, est. \$24,790
GA Rich (of Deer Creek):	DNQ (Spot Liner Repairs Only)

As such, it is recommended to contract with Hoerr Construction for a not to exceed amount of **\$18,190**.

This matter has been placed on the City Council consent agenda of Monday, April 17, 2017 for review and approval.
