## **MEMORANDUM**

TO:

Finance and Personnel Committee

FROM:

Jon R. Oliphant, AICP, Planning & Development Director

SUBJECT:

Cell Tower Lease Buyout Consideration

DATE:

September 14, 2018

<u>Summary</u>: Landmark Dividend LLC has presented a proposal to the City to buyout the two currently applied cell tower antenna agreements for \$530,000 for a 35-year period. Michael Henschel from Landmark attended Monday's Committee of the Whole meeting to present this and to take any questions. Additional discussion is planned for the Finance and Personnel Committee meeting on September 17.

Background: The City currently has three lease agreements, one of which is not active to date:

- Verizon Blumenshine Property (approved in January 2001): The current term is effective through September 2022. Verizon pays the City \$913 in monthly payments through that term. The agreement allows for annual extensions with a 3% increase at the end of each anniversary of the commencement period as long as neither party has submitted a termination notice at least six months prior to the end of the current term. The City is guaranteed \$44,737 through the current term.
- T-Mobile Water Tower #1 (approved in April 2007): The current term is effective through July 2022. T-Mobile pays the City \$2,687.33 in monthly payments with a 3% increase at the end of each anniversary of the commencement period. The agreement allows for two more five-year extensions with the same 3% increase at the end of each anniversary of the commencement date. The City is guaranteed \$134,612.13 through the current term. If the two five-year extensions were applied through July 2032, the City would be paid a total of \$547,306.74.
- Verizon Water Tower #1 (approved in April 2017): The City has not begun receiving monthly lease payments because the equipment has not been installed on the tower. The initial term would be for ten years. Verizon would pay the City \$2,000 in monthly payments with a 3% increase applied at the end of each anniversary of the commencement date. The agreement allows for four five-year extensions with the same 3% increase at the end of each anniversary of the commencement date. The City would be paid \$275,133.10 through the initial 10-year term. If the four five-year extensions were applied through 2048 (assuming a commencement date of January 1, 2019), the City would be paid a total of \$1,141,809.98.

The City is guaranteed **\$179,349.13** through the current terms of the Verizon (Blumenshine) and T-Mobile agreements. Should the Verizon (Water Tower #1) equipment be installed and that agreement be extended through 30 years and the T-Mobile agreement be extended through July 2032, the City would receive \$1,689,116.72. Additionally, the City is guaranteed \$44,737 through the current term of the Verizon (Blumenshine) agreement, which would bring the total to \$1,733,853.72, plus any possible annual extensions of that particular agreement.

Landmark Dividend has offered the City \$530,000 for an initial 35-year term for the two active agreements. At the end of that term, Landmark, at its sole discretion, would have the option to extend the term an additional 35 years at an anticipated price of \$1,471,993.01. Mr. Henschel has

indicated that the initial offer price would be increased to \$820,000 if the Verizon (Water Tower #1) equipment is installed and that lease becomes active.

If the Verizon (Water Tower #1) agreement does not become active, the City would not see a return of \$530,000 in future revenue until 2031 if the Verizon (Blumenshine) agreement is not extended annually after 2022. That assumes that the T-Mobile agreement is extended for two more successive five-year terms. If the Verizon (Water Tower #1) agreement does become active starting January 1, 2019, the City would not see a return of \$820,000 until 2030 if the Verizon (Blumenshine) agreement is not extended annually after 2022. Any annual extensions of this agreement would decrease the time that the City could anticipate receiving the revenue that Landmark is offering.

Landmark would only be assuming the current City leases and would not have the ability to enter into any lease agreements with other cell providers on these facilities or others in the future. With continual technology updates and the passage of the Small Wireless Facilities Deployment Act, it is unknown what the future may be for "large cell" service and how reasonable it may be for extensions of the City's existing agreements to occur.

General discussion is planned for the September 17 Finance and Personnel meeting.
