CITY OF WASHINGTON WASHINGTON, ILLINOIS

TO:

Chairman Burdette, and Planning & Zoning Commission Members

FROM:

Becky Holmes, Building and Zoning Supervisor

DATE:

SUBJECT: Eight (8) foot and four (4) foot distance between structure variance

requests to construct a storage shed

PETITIONER:

Leslie Willman

LOCATION:

209 S Pine St

To allow a proposed 12 x 20 storage shed to be 2 feet from the ZBA REQUEST: principal structure and 6 feet from a proposed attached garage. Required distance between structures is 10 feet.

BACKGROUND: The property is zoned R-1 with a lot width of 60 feet and a lot depth of 75 feet. The petitioners are requesting to construct an attached garage which meets all setback requirements and a storage shed which is proposed to be 2 feet from the house and 6 feet from the proposed attached garage. Only the storage shed requires a variance.

STAFF'S OBSERVATIONS:

- It appears that the petitioners may be able to receive reasonable return on their property without constructing a shed for storage purposes.
- There does appear to be unique circumstances because the lot is narrow and shallow.
- It does not appear that the character of the neighborhood would be altered as many structures in the area have less than 10 feet between structures.

STAFF RECOMMENDATION: Staff recommends denial of the distance between structure variance requests.

PUBLIC HEARING: Your case will be referred with staff's recommendation to the next regularly scheduled Planning and Zoning Commission (PZC) meeting for a public hearing. The PZC meets the first Wednesday of every month at 6:30 p.m. at the Washington District Library meeting room at 380 N. Wilmor Road. At the PZC meeting, you will present your request. A variance cannot be granted by the PZC unless the PZC finds, based upon the application and evidence presented at the public hearing, that a strict application of the terms of the Zoning Ordinance imposes practical difficulties or particular hardship. The following are examples of variances that can be

To permit the extension of a district where the boundary line of a district divides a lot in single ownership as shown of record.

2. To permit the reconstruction of a nonconforming building which has been destroyed or damaged to an extent of more than fifty percent (50%) of its value, by fire or act of God, or the public enemy, where the PZC shall find some compelling public necessity requiring a continuance of the nonconforming use, but in no case shall such a permit be issued if its primary function is to continue a monopoly.

To make a variance, by reason of exceptional narrowness, shallowness or shape of a specific piece of property of record, or by reason of exceptional topographical conditions the strict application of any provision of this chapter would result in peculiar and exceptional practical difficulties or particular hardship upon the owner of such property, and amount to a practical confiscation of property, as distinguished from a mere inconvenience to such owner, provided such relief can be granted without substantial detriment to the public good and without substantially impairing the general purpose and intent of the comprehensive plan as established by the regulations and provisions contained in the Zoning Ordinance.

To interpret the provisions of this chapter where the street layout actually on the ground varies from the street layout as shown on the district map fixing the several districts.

To waive the parking requirements in the business or industrial districts whenever the character or use of the building is such as to make unnecessary the full provision of parking facilities or where such regulations would impose an unreasonable hardship upon the use of the lot, as contrasted with merely granting an advantage or convenience.

6. To permit a building to be erected, reconstructed, altered, or enlarged so that the building lines would extend beyond the distance specific in this chapter into side yards or into front yards; provided that such variance may not be granted:

a. Unless there is a building in the block that extends beyond the distance from the front street line specified in this chapter, in which case the building line may be permitted to extend as near to the front street line as such nonconforming building;

b. Unless the lot is irregular in shape, topography, or size; or

- c. Unless the street line of the lot is directly opposite the street line of a lot which is irregular in shape, topography, or
- 7. To permit in any district such modifications of the requirements of the regulations of this chapter as the Board may deem necessary to secure all appropriate development of a lot where adjacent to such lot on two or more sides there are buildings that do not conform to the regulations of the district.

Certification: To the best of my knowledge, the information contained herein, and on the attachments, is true, accurate, and correct, and substantially represents the existing features and proposed features. Any error, misstatement, or misrepresentation of material fact or expression of material fact, with or without intention, shall constitute sufficient grounds for the revocation or denial of the proposed Variance.

After receiving a completed application, the City Clerk will file notice of your request with the local newspaper and with the adjoining property owners. If you have any questions, please contact Becky Holmes, Building and Zoning Supervisor, at (309) 444-1122.
