

# Memo

---

TO: Mayor Manier and City Council  
FROM: Kevin Schone, Public Works Manager  
DATE: December 3, 2018  
SUBJECT: Sanitary Sewer Lining Walnut-Jefferson

---

In September of this year Public Works was notified of a sink hole in the alley between Jefferson and Walnut located between Church and Spruce. This was the second time crews were called to this site. City crews investigated the sink hole and have determined the 15" sanitary sewer pipe has been compromised and is need of replacement or repair (lining).

On April 25<sup>th</sup> of this year bids were opened for the furnishing of cured in place piping. Hoerr Construction of Goodfield Illinois was the successful bidder for this service and as such were contacted for a price on lining of the 15" sanitary sewer.

This fiscal year's budget has allowed \$125,000 for CIPP. Hoerr Construction quoted a price of \$22,768.00 for cleaning, televising, and lining of the 15" sanitary sewer. Overall length of this repair will be +/-454'. There are sufficient funds within the budget for this expenditure.

Given the condition of this pipe, staff is recommending approval for Hoerr Construction to move forward with the lining of the 15" sanitary sewer at an NTE price of \$22,768.00.

This matter has been placed on the City Council consent agenda of Monday, December 3, 2018 for review and approval.
