TO: Mayor Manier and Washington City Council
FROM: Michael D. McCoy
DATE: December 20, 2018
SUBJECT: Emergency Lighting for Motorcycles

As previous reported to Council, the two motorcycles have been delivered and paperwork will be completed within the next two weeks with Walters Brothers. These cycles were ordered without safety lights and sirens.

In consultation with other local police agencies, that have motorcycles, we determined what the minimum safety lighting would be. We then solicited bids from three corporations. Bids were received from Ray O'Herron of Decatur, Ill., Fleet Safety of Greensboro, NC., and Strobes and More from Westerly, RI..

Strobes and More submitted the lowest responsible bid of \$6,794.44 for both motorcycles.

Seeking Consent Agenda approval for the purchase, which is covered in the Washington Police Department budget.

Attached is a Memo from Officer Cernek outlining the procedure.

MEMORANDUM

To: Chief Michael D. McCoy

From: Officer J. Cernek #401

Date: December 19th, 2018

Subject: Request for lighting/siren systems for the Motorcycle Unit

The purpose of this memorandum is to request the purchase of lights and sirens for the Washington Police Motorcycle Unit. The two motorcycles we have do not come pre-equipped with lights or sirens but are manufactured specifically for Law Enforcement in order to accept a variety of lighting packages. I have attached three different quotes for the items which I deem to be the minimum necessary for safe operation of the motorcycles on-duty. Each quote has two tour packs (including built in lighting package), siren systems, front windshield arrays, and additionally the minimum amount of accessories needed to make each function properly. I have sought out multiple purchasing options and attempted to reduce cost on these as much as practical. I sought out advice from already existing motor officers from Tazewell County agencies and have enlisted the help of an East Peoria Motor Officer, to help install the systems (reducing cost substantially), if approved. I propose we use Strobes N' More for any future purchasing, upon approval. The Strobes N' More's representative went above and beyond to provide the greatest cost reducing input and systems, while maintaining the quality needed. If purchase is approved, these systems would be able to be transferred from our Harley Police Motorcycles to future Harley Police Motorcycles (upon end of lease term). Harley has done an excellent job of making these systems transferrable and this contributes to the long term benefits of the Motorcycle Unit in general. Thank you for your consideration of the Motor Unit lighting and siren systems.
