Subject: RE: Investigations - February 2019

Chief,

The Investigation Division received 26 cases for Investigation in the month of February, including five sexual assaults and nine burglaries. Also, we closed two federal investigations this month by arrest. Both of those cases involved the receipt and distribution of files containing child pornography over the Internet. Both offenders are being held by the U.S. Marshalls. In those matters, we executed three search warrants and two arrest warrants. In addition, we continue to investigate daily reports of crime that needs our attention.
