TRANSMITTAL LETTER

April 5, 2019

Mayor Manier & Members of the City Council:

Attached is the proposed budget for the City of Washington, Illinois for the fiscal year May 1, 2019 through April 30, 2020.

This document reflects the collaborative efforts of the City's elected officials and staff. Department Heads – Controller Joanie Baxter, City Engineer Ed Andrews, Planning & Development Director Jon Oliphant and Police Chief Mike McCoy along with Public Works Manager Kevin Schone and Deputy Police Chief Jeff Stevens – contributed their time and efforts in developing fiscal estimates and budget recommendations for their respective departments. The proposed budget is a true team effort.

A summary of the City of Washington's FY19-20 budget in comparison to the prior year is shown in the table on the following page. Revenues and expenses across all funds have been grouped into common categories for comparative purposes. While these data are useful in providing summary information and general trends, substantive conclusions should only be made following a more thorough evaluation of the budget detail provided for each individual fund.

EXPENSE OVERVIEW

The budget appropriates \$29,523,402 to meet the city's anticipated expenses for the fiscal year beginning May 1, 2019, a \$5,865,877 or 24.8% increase compared to the prior year. Of the nine major service categories shown in the Budget Trends table, expenses related to the City's core services (sanitary sewer, streets, public safety and water) account for almost 82% of total budgeted expenditures.

The proposed budget includes a significant reinvestment in the City's infrastructure, most notably to maintain aging streets and utility distribution systems. Capital expenditures are estimated to total over \$15.8M in the coming year, 53.4% of total budgeted expenses. See Capital Improvement Program summary for further detail (page 106).

Personnel expenses are estimated to total \$7.5M in FY19-20. They account for 25.5% of total expenditures and are projected to decrease 2.6% in comparison to the prior year budget. Total City employment (62.0 FTE) is down 3.0 FTE due to the full-year effect of consolidation of telecommunications along with an anticipated retirement. About 46% of the City's workforce is engaged in public safety services; 45% is committed to public works; 5.4% to general administration and 3.3% to planning, zoning and economic development. Joining the Intergovernmental Personnel Benefit Cooperative (IPBC) a few years ago has proven to be a wise decision in containing health insurance costs, as the City will be benefitting from a second consecutive year of decreased rates at renewal, which contributes to the decrease in personnel costs.

Operations costs are projected to increase by about \$500,116 or 11.4% in the coming year. The Operations category includes a wide variety of expenses: utilities (electric, natural gas and phone); professional fees (legal, engineering and data processing); repair and maintenance of buildings, grounds, office equipment, and public infrastructure (streets, sidewalks, storm sewers); training; property insurance; chemicals (mostly those used in the treatment of water and wastewater); janitorial supplies and various commodities. An expense of \$250,000 or half of the increase is attributed to replacing a 20-year old accounting system.

Annual debt service expenses of \$1.3M are \$175,492 lower than the prior year and account for about 4.5% of total budgeted expenses. Of this total, \$529,446 is payable from sewer revenues, \$530,353 is payable from General Fund income, and \$261,355 from water revenues.

REVENUE OVERVIEW

Sales and use taxes make up the largest source of monies to fund the FY19-20 budget. These revenues are generated from four component parts: the 1% municipal sales tax (\$3.1M), the 1.25% home rule sales tax (\$2.1M), the newly enacted additional .5% Home Rule Sales Tax for infrastructure (\$840,000), and the local use tax (\$525,000).

Bonds and grants totaling \$6.395M make up the second largest revenue source including anticipated funding for Sewer Treatment Plant #2, Phase 2B (\$2.75M); and funding applied for a variety of other capital improvement projects including Nofsinger Realignment (\$1.8M); Freedom Parkway/Lakeshore Drive (\$752,500); Recreation Trail Extensions (\$255,840) and Safe Routes to Schools (\$400,000).

Surplus funds have resulted from an accumulation of funds and will be utilized for one-time capital projects totaling more than \$3M in the General Fund including the local match on some of the projects shown above. As emphasized in prior budgets, the funding of certain capital projects requires the City to accumulate monies in some years in order to pay for projects that occur in later years. Furthermore, accumulated cash reserves that are realized through normal operations can be safely spent on one-time capital projects provided the City maintains sufficient reserves to meet its minimum cash reserve requirements, its cash flow needs and prudent contingencies for unanticipated expenses.

CHALLENGES & OPPORTUNITIES

One of the primary financial challenges facing the City continues to be the ability to keep pace with necessary improvements that sustain existing infrastructure and enable economic growth. The goal of the water and sewer rate study currently underway is to put funding strategies in place to help with water and sewer infrastructure needs now and into the future. Street and stormwater infrastructure needs are also a concern and funding strategies must be adopted to insure adequate financing. Continued growth of key revenue sources is a crucial component of this funding strategy.

Another challenge remains in regard to the uncertainty related to the state budget. Given the state's budgetary problems, legislative action to shift some of the burden to local governments is possible. Staff will continue to closely monitor potential legislation affecting municipalities.

Management staff is looking forward to working with the City Council and our new City Administrator in continuing to serve our fine city in the year to come.

WATER SUBDIVISION DEVELOPMENT FEE ACCOUNT (Fund 500-01)

Core Service, Purpose or Function

The City operates a public water distribution system: elevated tanks, mains, booster stations, etc. Like any public utility, the city must regularly extend, improve, and/or upgrade its water distribution system to enable and support future growth and development. The City charges a Water Subdivision Development Fee in the amount of \$865.50 per residential dwelling unit and \$2,581.50 per acre for non-residential properties at final plat approval. The fee automatically increases on January 1st of each year by 3.5% or the rate of inflation, whichever is greater. The fee automatically increases on January 1st of each year by 3.5% or the rate of inflation, whichever is greater. All of the funds collected from Sewer Subdivision Development Fees are restricted to and spent solely on extensions, improvements, or upgrades to the sanitary sewer collection system necessary to support future growth and development.

CAPITAL IMPROVEMENT PROGRAM

Objective

The objective of the five-year Capital Improvement Program (CIP) is to provide short- and long-range financial planning for the acquisition and/or construction of new or replacement of existing City-owned assets. The establishment of a multi-year CIP is a valuable tool in assisting the City in its efforts to:

- Effectively plan for the city's long-term capital funding needs;
- Facilitate economic growth;
- Determine the character and location of needed public improvements; and
- Provide for the efficient and responsible financing of these improvements.

Guidelines

1. The time period for this CIP is five years, FY19-20 through FY23-24.
2. The CIP is designed to account for expenditures for the acquisition of assets which are characterized by a long-term life-expectancy, such as major machinery, buildings or property, street improvements, water or sewer system improvements and replacements to the motor equipment fleet.
3. Items in the CIP are limited to those with a life expectancy of greater than one (1) year.
4. All replacements to motor equipment are purchased through the Motor Equipment Replacement Fund (MERF).
5. The CIP includes only those projects that 1) can be realistically funded during the five-year period or 2) are deemed absolutely essential even if funding is not presently available.
