Dear Kent,

Thank you for sharing your time with me. Based upon our meeting and the survey of the business, we discussed the following in regards to a custom designed surveillance system.

Scope of the Project for Walnut Street: To add a surveillance system that will view the front door, side door and rear entry doors.

Surveillance System Equipment List:

- 1 – Salient Network Video Recorder 60 Days Storage at 7IPS
- 1 – Pro 750 Watt UPS Battery Back-up
- 1 – 10 Port POE Data Switch
- 4 – Bosch Varifocal 5mp Dome Cameras
 - 1 – Outside View of Front Door
 - 1 – Outside View of Side Door
 - 1 – Outside View of Back Door
 - 1 – Inside View of Receptionist Area

System Purchase:

\$ 12,530.00

Notes:

- Software Demo Available from Salient upon Request.
- We are assuming City Hall has sufficient rack space in the data closet for the recorder.
- City is to supply data connectivity to the Police Department.
- City to supply AC Power.

Kent, thank you for your time and continued interest in the services of Oberlander Alarm Systems. If you have any questions or need additional information please do not hesitate to contact me at 309-402-7001 or at jeff@oberlanderalarms.com.

Best Regards,

Jeff Embry
