MEMORANDUM

TO: Chairman Burdette and Planning and Zoning Commission
FROM: Jon R. Oliphant, AICP, Planning & Development Director
SUBJECT: Public Hearing – A&J Storage and Development Special Use Request, 1756 Washington Road
DATE: August 26, 2019

Summary: Dane Ainsworth of A&J Storage and Development has submitted a special use application for the allowance of an outdoor batting cage to operate at 1756 Washington Road. The zoning code allows for outdoor recreation and amusement establishments to be handled as a special use in the C-3 zoning district. Staff recommends approval of the special use contingent on the conditions specified below.

Background: A&J Storage and Development purchased the property about two years ago. Part of the building (the former TSC space) was sold to and redeveloped by Connect Church. The eastern 2/3 of the building has been utilized primarily as recreation vehicle storage. Mr. Ainsworth has proposed to utilize about 4,400 square feet of the facility for an indoor training facility that would include two batting cages, a pitching mound, area for personal training, lounge area, and office space. That is allowable in the C-3 district. It was originally occupied by Walmart and most recently by the Uftring Auto Dealership as part of its temporary headquarters and M4 Steel for its temporary operations until its new building is completed soon. The outside recreation space is subject to requirement as a special use.

The proposed outside recreation space is approximately 3,132 square feet and was formerly utilized for a garden sales area when Walmart occupied the premises. If approved, the space would allow for conditioning, fielding, and batting drills. It would have a turf field to eliminate any maintenance. According to Mr. Ainsworth, it would be designed to have a capacity of up to 40 people but is more likely to have up to a team or two and any given time that would account for 10-20 people. The proposed outdoor operation would be seasonal and the hours would be as late as 8:00 pm or as daylight allows in the summer. Lighting is not proposed for the outdoor area other than the existing security lighting on the building.

This proposal would allow for extended use of the building and would be less impactful than the prior retail operation. However, given the proximity to residential to the east, two conditions are recommended for approval:

- The hours of operation shall not extend beyond sunset; and
- No additional lighting shall be installed other than minimal security lighting that would be expected for all commercial buildings.

A public hearing will be held by the Planning and Zoning Commission at their meeting on Wednesday, September 4 to make a recommendation to the City Council on the special use permit.
