

CITY OF WASHINGTON, ILLINOIS
Finance and Personnel Committee Agenda Communication

Meeting Date: December 16, 2019

Prepared By: Ray Forsythe, City Administrator

Agenda Item: Department Director Pay Plan

Explanation: The City Administrator recommended a Public Works Department and City Engineer Reorganization Plan at the December 9th Committee of the Whole. As a follow up to this proposal the job descriptions for the Public Works Director and City Engineer have been revised. It is my opinion that the Department Level Pay Plan should be reinstituted. The City Council removed the pay plan effective FY 18/19. In order to recruit candidates for Department Director positions the City needs to show a progression through a pay plan. This also established internal equity for the management team.

Fiscal Impact: Determined once new City Engineer is hired and Public Works Director promoted.

Recommendation/

Committee Discussion Summary: The City Administrator recommends approving the updated pay plan. The Committee of the Whole discussed the proposed reorganization at the December 9th Committee of the Whole Meeting. The proposed revised and new job descriptions and department level pay plan will be presented to the City Council on December 16th.

Action Requested: Recommendation for approval of Pay Plan.

Additional Documentation: Pay Plan Schedule

Department Directors
