

CITY OF WASHINGTON, ILLINOIS

City Council Agenda Communication

Meeting Date: March 2, 2020

Prepared By: Jon Oliphant, AICP, Planning & Development Director

Agenda Item: Tazewell County Building Inspection Services Intergovernmental Agreement

Explanation: The City has utilized Tazewell County's building inspectors since April 2018. It continues to be a great relationship for both parties. The responsibilities of the Building Inspector include residential inspections and reviewing and approving building plans. The Building Inspector does electrical inspections for new residential projects while RNS Electric inspects residential electrical upgrades and commercial and multi-family new residential projects.

The County has a full-time employee that handles inspections and another that completes plan reviews and other administrative work. Having two County employees that are versed in inspections and building codes offers flexibility for both entities. The rate of \$50 per hour (which includes mileage) is the most economical of the available options. It is anticipated that 10-12 hours per week will continue to be typical. **The Intergovernmental Agreement is attached.**

The County staff would complete framing and final inspections for new residential and commercial construction, building additions, and larger accessory structures. City staff usually completes footing and foundation inspections as well as smaller accessory structures (typically just confirming setbacks). Safety First handles non-residential building inspections and reviews.

Fiscal Impact: None
