

CITY OF WASHINGTON, ILLINOIS
Public Safety Committee Agenda Communication

Meeting Date: February 8, 2021

Prepared By: Chief McCoy and Deputy Chief Stevens

Agenda Item: Enterprise Fleet Leasing Option

Explanation: We have worked with Dennis Carr and other City Staff examining Sourcewell Leasing through Enterprise and contacted Uftring Auto Group to inquire about local options and involvement. While we are awaiting final numbers based on specific needs assessments and forecasts from Enterprise, we support the fleet management concepts and believe the efficiency will save the City time and money while improving overall fleet quality.

Fiscal Impact: The specific impact forecast is not available at the time of this writing. We expect the overall impact to the City to be consistent with initial forecasts of saving, based on the concept that vehicle replacement timing is backed by significant data continuously evaluated by the vendor, which controls about 2 million vehicles and buys or sells about 1 million vehicles annually.

Action Requested: Evaluation of the fleet management concept and Sourcewell proposal, specifically.
