

CITY OF WASHINGTON, ILLINOIS
Committee of the Whole Agenda Communication

Meeting Date: June 14th, 2021

Prepared By: Kevin Schone – Public Works Director
Brian Rittenhouse – Utilities Superintendent

Agenda Item: Wastewater Treatment Clarifier Catwalk

Explanation: The construction of the third clarifier at the Wastewater Treatment Plant was completed in 2018. Since that time, plant personnel have not been able to perform routine maintenance safely on a section of the clarifier due to the ground elevation, and the height of the wall. Because of this, plant personnel sought quotes to add a railing and platform for personnel to complete the maintenance needed safely. Below are the results of staff's efforts.

Heartland Fabrication	\$18,298
Bessler Welding	\$25,361
River City Construction	\$49,255

Fiscal Impact: \$20,000 was budgeted in FY 21/22 for the construction of the railing and platform in account #501-00-800-2000.

Recommendation/

Committee Discussion Summary: As you can see above, Heartland Fabrication of Congerville Illinois provided the lowest quote at \$18,298, and as such, staff recommends Heartland for completing this work. Staff is also requesting approval of the budgeted amount of \$20,000 to cover an unforeseen issues during the construction.

Action Requested: Direction to move forward to the City Council meeting of June 21st for approval.
