

CITY OF WASHINGTON, ILLINOIS

City Council Consent Agenda Communication

Meeting Date: October 21, 2022

Prepared By: Dennis Carr – City Engineer

Agenda Item: 2022 Crack Sealing

Explanation: In an attempt to estimate out crack sealing costs and materials needed for in-house work; staff requested quotes for five different roads in Washington.

Jefferson – Wilmor to Lawndale

Kingsbury – Cummings to Dallas

Elgin – Gilman to Bus 24

Westminster – Dallas to Hampton

S. Main St – Square to Guth (Flagging is included)

Public Works Staff is also looking to do some crack sealing in house, but with winter rapidly approaching, staff would like to move forward with contracting out some of the crack sealing as well to get as much done before the snow as possible.

Staff received 2 quotes back with the low quote being from D&D Sweeping out of Eureka IL. While the expiration on the quote was September, D&D has informed staff that the price has not changed.

Fiscal Impact: The low quote from D&D Sweeping came in at \$32,400.00
Staff budgeted for \$60,000 to perform crack sealing work in the 2022/23 budget.

Recommendation Summary:

Staff recommends that the City Council Approve the quote from D&D Sweeping to perform crack sealing work in Washington, IL.

Action Requested: Approval

D&D Pavement Solutions Inc.
