City Council Agenda Communication

Meeting Date: March 6, 2023

Prepared By: Jon Oliphant, Planning & Development Director

Agenda Item: First Reading Ordinance – 2023 Orthophotography Project Intergovernmental Agreement

Explanation: The City of Washington has partnered in three prior orthophotography projects within Tazewell County. The City last participated in a similar project in the spring of 2019. There has been significant cost savings by doing this as a regional project and the goal is to have the orthophotography updated every four years for the County and its municipalities. Attached is an intergovernmental agreement that the County has asked each of the participants to approve. Tazewell County along with Logan, Peoria, and Woodford Counties approved a two-project agreement in 2019 with its selected vendor, EagleView Pictometry. This has been a great partnership with Tazewell County and the other participating municipalities.

This project would update the aerial photos from 2019. We have been asked to provide a share of the cost based on the number of improved parcels within the city limits and 1.5-mile extraterritorial planning jurisdiction. Tazewell County would incur 50% of the cost with the municipalities sharing the other 50%.

The following package is provided, as was the case in 2019: Enhanced 3-inch imagery with 4-way obliques within the incorporated portions of the County, 6-inch imagery for the unincorporated portions, and 9-inch imagery with 4-way obliques within the unincorporated portions. This also includes maintenance for the Rapid Access – Disaster Response Program, which offers post-disaster imagery 2-3 days after an event. The higher resolution from the 2019 flight allows for significant staff use by various departments. It is a necessary component of our GIS system.

Six other Tazewell cities are participating in this project: Creve Coeur, Delavan, East Peoria, Marquette Heights, Morton, and Pekin. The County has offered to pay the entire bill in advance of the project and would then send an invoice to each municipality later in 2023 in order to adequately budget for the project. Tazewell County would be the project manager and handle all of the quality control issues with the vendor. It is expected that the flight would occur this spring and the product would be delivered within 2-3 months. Payment would occur upon the completion of the project and at the time of delivery of the product. The total municipal cost for this is \$88,120.50 with Washington's share at a not-to-exceed amount of \$13,835.

Fiscal Impact: The FY 22-23 budget includes funds for the orthophotography project participation. Adequate funds will also be included in the FY 23-24 budget, as payment would not be made until after May 1 following the completion of the project.

Action Requested: Approval of the attached ordinance to signify the City's participation in the project at a not-to-exceed cost of \$13,835. A first reading ordinance is scheduled for the March 6 City Council meeting and a second reading will be scheduled for the March 20 meeting.

ORDINANCE NO. _____
