**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Balance Sheet and Schedule of Revenues, Expenditures and Changes in Fund Balance for the Incremental Tax Fund is intended to present the financial activity of only that fund of the City. The Incremental Tax Fund is reported as a nonmajor special revenue fund of the City. It does not purport to, and does not, present fairly the net position of the City as of April 30, 2025, or the changes in its net position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

**Measurement Focus**

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

**Basis of Accounting**

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within seventy-five days after year end. The City recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A seventy-five-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND EQUITY**

**Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

**Fund Balance**

The Incremental Tax Fund fund balance is classified as “restricted” due to limitations on the use of those funds. Tax Increment Financing (TIF) funds may be used for costs associated with the development of property within the TIF, allowing blighted, declining, and underperforming areas to become viable again.

**NOTE 2 - DEPOSITS AND INVESTMENTS**

Statutes authorized the City to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rates within the three highest classifications by at least two standard rating services.

The Incremental Tax Fund's cash and investments of \$495,173 were comprised of deposits with financial institutions. As of year-end, all of the Incremental Tax Fund's deposits were collateralized in accordance with their investment policy.

**NOTE 3 - PROPERTY TAXES**

Property taxes for 2024 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a tax Levy Resolution). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1 during the following year. The County collects such taxes and remits them periodically. The allowance of uncollectible taxes has been stated at 1.7% of the tax levy to reflect actual collection experience.
