

PDC Services, Inc.

Washington Carts

May 6, 2020

PDC begins delivering trash and recycling carts to City of Washington households next week. PDC will be distributing more than 10,000 carts to individual homes during a ten-day period, May 11-22nd.

Residents should be patient during the cart rollout. There are five different styles of carts to deliver: 95-gallon trash carts, 65-gallon trash carts, 95-gallon recycling carts-, 65-gallon recycling carts and 95-gallon yard waste carts. A delivery crew may pass by your home multiple times before a cart appears on the front curb of your home.

The Washington Park Pool parking lot is the staging area for the cart distribution. Parents in the neighborhood please keep your children away from the carts, parking lot and work area. The pool and park remain closed during cart distribution.

Do not approach the delivery crew or try to talk to them while they are working. Send questions in an email to washington@pdcare.com or call 674-5176.
